LIGHTEN UP! Artists' Interpretations of the Ubiquitous Lamp

August 29—October 4, 2015

Opening Reception: Sunday, September 13, 2015
The Gallery of Fine Craft at WheatonArts 2pm—4pm

Curated by Michelle Post and Dave Carrow

"As the world around us becomes more and more anxious and full of uncertainties, we find ourselves thrust into a darkness where our future seems more hopeless every day. Rising to the challenge of bursting through and penetrating this darkness come artists whose wit and imagination show us not to take life too seriously. With laughter comes healing, and with illumination comes peace. The only stipulation given to the artists when making their lamps was that it had a cord, could plug into a wall outlet and light up. Other than that, they were left on their own and unrestrained to create their illuminated treasures."
